

Invitation to SMILE...

Your challenge if you choose to accept it, is to play your part in making the world a better place. All you need to do is a little something which brightens up someone's day.

Your goal is to make people 'SMILE' by *sharing* your unique skills and talents in a *meaningful* way that *impacts* on your community, *lasts* over time and engages *everyone*. This challenge is about making a difference and bringing a smile to someone else. Good luck and keep smiling. Never lose your own smile – its right under your nose.
